

|                   |   |
|-------------------|---|
| Type              | Standard plane blazed holographic grating |
| Code number       | 020-220-□□□                               |
| Groove density    | 200 grooves/mm                            |
| Blaze wavelength  | 2200 nm                                   |
| Diffraction order | +1  |
| Coating           | Al  |

\*The above is typical one and could be subject to change under certain conditions.
